DX/SWL/MEDIA PROGRAMS updated Oct 4
https://www.worldofradio.com/dxpgms.html

** ARGENTINA. 28477+ USB, Oct 8 at 2213, LU4DJB calling QRZ DX and quickworking USAs. QRZ.com: ``LU4DJB Argentina flag Argentina, Natalia Edith PEREGRIN, Nueve de Julio, BA B6500CIN, Argentina`` -- did not sound like a YL (Glenn Hauser, OK, WOR)

** AUSTRALIA. 28504 USB, Oct 4 at 2330, VJ2J working K3DDF and a contest number of 59122, then CQ from Victoria Japan 2 Japan, Oz accent. QRZ.com: ``VJ2J Australia flag Australia, David E Burger, PO Box 37, MOUNT COLAH, NS 2079, Australia -- VJ2J is used for Contest operation, consequently no operation on WARC bands. See my main callsign ->
https://www.qrz.com/db/VK2CZ
VK2CZ for more information and historic results`` (Glenn Hauser, OK, WOR)

** BELIZE. 28495 USB, Oct 6 at 2211, V31ZA call only uttered several times, must be trying to reach a more DX station in pileup. QRZ.com: ``V31ZA Belize flag Belize, KEITH SLATER, P.O BOX 76, San Ignacio, Cayo, Central America, Belize`` - is into animal rescues (Glenn Hauser, OK, WOR)

** BRAZIL. 18140 USB, Oct 4 at 2342, PY6RT calling CQDX USA, QRZ. QRZ.com: ``PY6RT Brazil flag Brazil, Roberto "BETO" Tourinho - BETO, P. Box 277 - Caixa Postal 277, Feira De Santana, BA 44001970, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28350 USB, Oct 3 at 2205, PV8AL, QRZ, working Alabama. QRZ.com: ``PV8AL Brazil flag Brazil, HÉLIO DE OLIVEIRA ALVES, POBOX 181, BOA VISTA, RR 69301970, Brazil`` (Glenn Hauser, OK, WOR)

** BRAZIL. 28400 USB, Oct 3 at 2208, PY2BN, CQ 10 in English, QRZ, CCI. QRZ.com: ``PY2BN Brazil flag Brazil, Antonio Carlos Rodrigues (in dx Tuka), Rua . Das Paineiras n-268 JD São Paulo, Zip 13468-060/Americana, SP, Brazil`` (Glenn Hauser, OK, WOR)

** CANADA. 15034 USB, Oct 2 at 1938, Trenton Military, CHR, not off the air, aviation weather for Keflavik, Keflavik, only S4. Nor heard for several says on random chex, suspect sporadic (Glenn Hauser, OK, WOR)

** CANADA. 6754 USB, Oct 3 at 0618, CHR Trenton Military is JBA, ``Ottawa, Ottawa``, degraded propagation. Also 15034 USB Oct 3 at 1412, ``Greenwood, Greenwood`` (Glenn Hauser, OK, WOR)

** CANADA. 28197 CW, Oct 8 at 2202, 4 step-down-dashes, DE VE7MTY/B. A major beacon signal but relogged for the record. WGB list: ``28197.0 VE7MTY/B - Pitt Meadows BC CAN CN89pf - #0 (22 Mar 2024)  Note: ID + grid - HTX-100 Antron 99 pwr 25w`` --- QRZ.com: ``VE7MTY Canada flag Canada, Martin W Hill, 19696 115A AVENUE, PITT MEADOWS, BC V3Y 1P1, Canada -- QTH is 20 miles east of Vancouver, BC. I have been operating a ten meter beacon since 1995 on 28.197 MHz running 25 watts. It operates 24/7. The callsign is VE7MTY/B. The beacon uses a HTX-100 transceiver, an Antron 99 vertical antenna and a Freakin Beacon keyer. At the end of the CW message, it steps through four, 1 second power levels. 25 - 10 - 2 - 0.5 watts`` (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 2 at 1513, JBA Spanish S6/S7, RHC where something`s always wrong, and nowhere else altho before 1500 was dead air on 15230 (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 3 at 2201, JBA signal here probably RHC, while nothing on 13780 or any other known (Glenn Hauser, OK, WOR)

** CUBA. 13650, Oct 4 at 2351, S9+10/20 of dead air from CRI Portuguese relay of music only for years and years. It would be interesting to compute the total cost of all that waste; how many undernourished Cubans could have been well fed (Glenn Hauser, OK, WOR)

** CUBA. 15230, Oct 5 at 1436, S8 of dead air from RHC; 13780 S6 of DA, or JBM? 11760 S8/S9 of undermod Spanish.

11760, Sun Oct 5 at 1504, RHC with Esperanto theme and s/on S7/S9 into Knoxville SDR, outdated schedule as 08 on 6000?, 16 on 15730? 2230? on something. 13780 not on now, and 15230 still DA. Revamped radiohc.cu website seems to have eliminated any SW frequency info, no OF INTEREST sexion (Glenn Hauser, OK, WOR)

** CUBA. 6000, Oct 6 at 0456, S9+10/20 dead air from RHC except for some hum. SAWA (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9710, Oct 6 at 0503, S9+20 undermodulated? hymn, talk sounds Slavic. Rather, it`s dead air from RHC atop VATICAN as scheduled in Russian daily at 0500-0520 (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 6 at 0507, S9+30 of dead air except for some hum; degraded propagation, with 13+ MHz bands dead (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 6 at 1515, RHC, S9 undermod Spanish, not on 13780 or 15 MHz frequencies (Glenn Hauser, OK, WOR)

** CUBA. 11950, Mon Oct 6 at 2222, RHC Spanish, S9+20/30, slightly better than 11760, S9+20/30 undermodulated, while 13780 is S9+20 but JBM, 15230 deadair or trace of mod S9+20. 11950 is the rarest of these, probably limited hours. Not in current EiBi, but in Aoki M-F 23-24 only from Bauta. That was winter timing IIRC for the TV audio relay hour of `Mesa Redonda` but now // the mainstream RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, Oct 7 at 1858, RHC music, S8/S9 into Maryland SDR but with squeal equally on both sides, transmission defect, SAWA, making interesting display on H2Ofall, symmetrical bands out beyond plus/minus 5 kHz, not avoidable even by AM-narrow tuning, LSB or USB. 1900 ID, 1901 open English, never giving frequency (Glenn Hauser, OK, WOR)

** CUBA [non]. Oct 7 at 2220, NO RHC signals anywhere: 15230, 15140, 13780, 11950, 11760. SAWA (Glenn Hauser, OK, WOR)

** CUBA [and non]. 11760, Oct 8 at 1433, RHC music S8/9+5 direct with good modulation, unlike: 13780 S6 undermod music; 15140 S6/S7 UM mx with usual squeal; 15230 S8/S9 of dead air. SAWA. Also at 1908 no 15140 or 11760, while JBA 13780 probably something else, Japan via France at 19-21 (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, Oct 2 at 1940, R. Martí/LV del Trumpismo is back on the air despite USG shutdown, and missing yesterday. Priorities? (Glenn Hauser, oK, WORLD OF RADIO 2315)

** CUBA [non]. 13605, 11930, 11860, Oct 3 at 1413, R. Martí/La Voz del Trumpismo, is off again during USG shutdown. But at 1852 they are all on, VG into Ft Lauderdale SDR (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, Oct 3 at 2157, all three R.

Martí/LV del Trumpismo are off already, no signals direct unlike previous check at 1852. Nor are the evening ones on either, 11930, 9565, 7335. Sat Oct 4 before & after 1500, not on air. Vying with RHC for unreliability honors. Something`s grim at Grimesland (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, Oct 6 at 1515, R. Martí/LV del Trumpismo is off. But at next check 1806 they are all ON; hours? (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, Oct 8 at 1456 no R. Martí/LV del Trumpismo signals; by 1557 carriers are on, and 1600 ID and start programming; 11860 is best into my ATS-909 with clipon. So is 1600 the standard sign-on time now? Still at 1852 with 13605 leading as usual. Next check at 2157 all off already, so when are they QRTing now? nor any evenings like 9565, 7335 (Glenn Hauser, OK, WOR)

** CUBA [non]. 13605, 11930, 11860, Oct 7 at 1642, R. Martí/LV del Trumpismo not off the air, blasting into Fort Lauderdale SDR (Glenn Hauser, OK, WOR)

** CHILE [and non]. 28422 USB, Oct 6 at 2210, CE7VP, Patagonia, southern Chile, finally utters own ID after several quick contacts with USA like K2HCW in NJ. QRZ.com: ``CE7VP Chile flag Chile, Javier "Javi" Capdebilla A., P.O. Box: 42, Quellon, Chiloe Island, 5790000, Chile`` - I logged him before, Apr 25 at 2210 on 28433.065.

Quite a few other sigs now on 10m, both phone and beacons not relogged such as WN2A/AK2F, AA1TT/B, XE1JAL/B. Way up on 28750 USB, QSO sounds like Ozes (Glenn Hauser, OK, WOR)

** EGYPT [non]. 9440, Oct 7 at 2115 and after 2200, no signal from R. Cairo sesquihour in English. How long has it been since anyone heard it, even dead air? At least other stations courteously keep it clear, China between 2100 & 2300; BBC not on until 2200. The A25 mostly? imaginary R. Cairo sked:
https://new.hfcc.org/data/schedbybrc.php?seas=A25&broadc=ERU
All are on 9 MHz band, no doubt an antenna limitation. Any of the others ever heard? (Glenn Hauser, OK, WOR)

** FRANCE [and non]. 7340, Sun Oct 5 at 1542, TDF is still on with MiniTransAt weather broadcast, but by now is in music fill, with ``Mem`ries``, S9+15 into UTwente, and only S5/S6 on // 17545 because Issoudun is too close to UTwente. Is off by 1557 when I hear on 7340 instead, ChiCom martial music, 1600 TS, and presumed Kazakh as scheduled before and after via PBS Xinjiang, Urumqi (Glenn Hauser, OK, WOR)

** FRANCE. 17545, Oct 6 at 1532, TDF Issoudun with MiniTransAt marine weather, S7/S9 into Azores SDR, except by now it`s fill music, ``Xanadu``, at 1542 ``Mem`ries``, same tune as on previous day. 1554 to open carrier, turned off and on several times to 1557* (Glenn Hauser, OK, WOR)

** GERMANY. 3975.001, Oct 6 at 2000 after WOR, kept listening to SW Gold Radio via UTwente, while 6160 had just about faded out, for the Lullaby show, Karen Werner`s `Night Air` live from Bergen, Norway: soft singing until 2017, then dead air -- or to put it more positively, *quietude* as of course by then we are supposed to be dozing, and I almost am. A daring new concept in broadcasting!

At 2030 revivifies with ID and some more quiet instrumental music; 2045 another ID and more upbeat music. 2100 `Letterbox Show` as sked Mon & Sat 21-22; Sat 12-13 on 6160, Sun 14-15 on 6160, Fri 17-18 on both 3975 & 6160, Fri 23-24 on 3975 as per:

https://shortwaveradio.de/en/week41-2025
but playing music along with greetings (Glenn Hauser, OK, WOR)

** INTERNATIONAL VACUUM. Oct 7 at 2025 UT, several cable TV channels freeze or go to black, via Optimum [sic] in Enid. No apologies or stand-bys on screen, but probably solar transit outages affecting the particular satellite they feed through: MSNBC, CNN, HLN, USA at least. By 2030/2031 they begin to melt/resume (Glenn Hauser, OK, WOR)

** MEXICO. 610, Oct 3 at 0629, Mexmx over usual dominant KFNZ Kansas City, 0649 ``La Ke Buena`` slogan. This applies to no UStations and one Mexican per IRCA Log: ``XECCBS Zacatecas Fresnillo 10000 -1000 La Ke Buena GRU TVR New station was testing 5/25, on the air by 7/25. //XETGO 1100AM, XHCCFE 91.9FM Fresnillo, and several other FMs. Replaces XEEL, which finished moving to FM years ago`` ``POWERS: "-1" = station power is unknown. Other negative numbers indicate presumed, suspected, or estimated powers. Many of these listings are a result of the fact that stations seldom publicize their night powers, and night powers are often missing from station license documents and construction permits ("CPs")`` (Glenn Hauser, OK, WOR)

** MEXICO. 28183 CW, Oct 7 at 2204, VVV XE1RCS/B - familiar beacon but still missing from WGB roster; see my March 31 log for 28182, at Cerro Gordo (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6955 USB, Oct 4 at 2326, ``Rollin` on the River`` pirate music, S9+10/20 vs S9/+10 NL: Many other logs from 2320 to 2348 only as unID until Konstantin Barsenkov, St Pete, saw MOZILLA Radio image on the waterfall via remote in NC: https://www.hfunderground.com/board/index.php/topic,151278.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, Oct 4 at 2327, pirate talk, then music,, S9+10 about equal to noise level. Reports here as Art Bell Speaks Radio, 2318-2334: https://www.hfunderground.com/board/index.php/topic,151276.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 AM, Oct 4 at 2357, JBA pirate music, presumably different station than the one in USB a semihour earlier; nor is it 5 x 1390 local KCRC. Reports here as R. Zeppelin International from 2341 to 0027 with music by -- Led Zep: https://www.hfunderground.com/board/index.php/topic,151280.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475 AM, Oct 6 at 0457, JBA carrier, no doubt Station YHWH, anti-Christ pirate which Ron Howard was hearing early: ``Oct 6 - YHWH (7475) already on at tune-in of 0230 UT, doing well via remote at Palomar Mt. #1, So. Calif.; nicely readable, even with heavy static!! Ron (Monterey, Calif.)`` (Glenn Hauser, OK, WOR)

** NORWAY [non]. 3975.002-, Oct 7 at 2000, SW Gold Radio, GERMANY, singing lullabyes but Karen includes some talk about her background as an immigrant adoptee; dozing/deadair starts this time at 2014. 2030, mod resumes with SWR ID and upbeat music until 2100 when there is no outro. But into Feature Story News. Unclear whether the second semihour be part of `Night Air`, but sked implies it`s a daily full hour, nothing else at 2030 (Glenn Hauser, OK, WOR)

** OKLAHOMA. 90.1, KUCO Edmond/OKC, having just completed a pledge drive successfully by 2300 UT Friday Oct 3, expected programming back to normal, such as `Performance Oklahoma` at 1400 UT Saturday Oct 4: great symphonic music playing, but never any announcements, past 1630 - this isn`t even syndicated classical from Minnesota or Chicago. And on and on; finally about 23 UT Oct 4 I hear a mention that they are

having technical difficulties, and will return to normal programming ASAP (Glenn Hauser, Enid, WOR)

** OKLAHOMA. What`s going on Saturday morning? Listening after 9 am, very fine music past 11:30 but no announcements whatsoever. Expecting to hear Performance Oklahoma (Glenn inquiry to KUCO 90.1)

Reply Monday morning from Jeff Hagy: ``We unfortunately experienced a power failure which cascaded to a computer glitch. Programming has returned to normal. Sorry for the inconvenience. Classical KUCO`` (Glenn Hauser, Enid, WOR)

** POLAND [non]. 17790, Oct 2 at 2200 quick check while recording WOR: English from PRES via WRN via WRMI still running (Glenn Hauser, OK, WORLD OF RADIO 2315)

** POLAND [non]. 17790, Oct 3 at 2237 no WRMI signal into TN or MD remotes, so no hour from PRES via WRN; had not checked today if at least it started at 2200 (Glenn Hauser, OK, WOR)

** POLAND [non!]. 17790, Oct 6 at 2159, WRMI gospel huxter // 15770, but after cutting him off for ID at 2159.5, at 2200* 17790 goes off rather than WRN relay of PRES as happens sporadically at least for a portion of the 1-hour program. Something`s odd at Okee (Glenn Hauser, OK, WOR)

** POLAND [non]. 17790, Oct 7 at 2201, this WRMI still on with PRES in English, mistake? Unknown for how long but gone by 2217 check (Glenn Hauser, OK, WOR)

** POLAND [non]. 17790, Oct 8 at 2200, S9+10/20, WRMI starts PRES English via WRN but chops off the air after one sesquiminute: pretty clear that if there be any more, it`s accidental (Glenn Hauser, OK, WOR)

** PUERTO RICO. 391 MCW kHz, Oct 3 at 0627 UT, DDP at Dorado ND beacon is JBA vs local noise level of S7 (Glenn Hauser, OK, WOR)

** PUERTO RICO. 391 MCW kHz, Oct 5 at 0637, DDP audible again, beacon from DoraDo, Puerto Rico airport; once I have turned off some household devices for a marginal reduxion in local noise level (Glenn Hauser, OK, WOR)

** PUERTO RICO. 391 MCW kHz, Oct 6 at 0452 UT, DDP, NDB at Dorado, again JBA. Very little from the much closer area regulars now (Glenn Hauser, OK, WOR)

** ROMANIA. 11740, Oct 6 at 0506, S9/+10 of French about Roumanie: yes, as in Aoki at 0500-0527; but missing from EiBi. Others report some English frequencies missing:

``With a good signal in English using indoor equipment here in NB today (4 October) at 20:35 UTC on 9740 kHz. It would be helpful for those not familiar with the RRI frequencies if this Web page was kept up to date:
https://www.rri.ro/en/frequencies
-- Richard Langley``

``However a few hours later no trace of RRI on 9740 at 0300 October 5 here in Houston. Not sure if it was bad propagation; no sign of Voice of Turkiye on 7275 at the same time. Both were on 24 hours earlier though reception was degraded. Stephen Luce, Houston, Texas``

Oct 5 at 1812: ``it would appear several RRI broadcasts are missing… Romanian on 11975 17-20, the 11945 feed to the US. It seems most if

not all RRI is off SW right now. Regards, Paul Walker, AK``

``Hey Glenn, I searched the messages and even their website but all I have found is 11620 at 0000. Have they moved off of this or are they having problems again? Regards, Chris`` Campbell, OH (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Oct 3 at 2158, REE JBA carrier direct, Doppler flutter, disturbed propagation (Glenn Hauser, OK, WOR)

** SPAIN. 15520, Oct 7 at 1807, this REE frequency for ME is finally reactivated after weeks of silence, in Spanish, S6/S9 into Maryland SDR, // 15390 for Africa much weaker and // 17715 for S America much stronger - but STILL missing 15500 the N American frequency! (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Wed Oct 8 at 2158, REE JBA carrier direct, so we`re out of luck for token weeklEnglish; even weaker JBACs on 15390, still reactivated 15520 for ME but insuff backwards for us while `our` frequency 15500 is still absent. At 2248 I try to confirm at least that the English hour happened, but NO signals on any frequency into NH, UTwente, nor Canarias SDR, but the latter is not getting much of anything (Glenn Hauser, OK, WOR)

** TURKEY. 11785.019-, Oct 3 at 2157, no signal direct from VOT. At 2211, JBA carrier direct. At 2223 when measured, S7/S9 poor signal into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11660.019-, Sun Oct 5 at 1640, VOT English, S9+10/25 into UTwente, ``with-you-every-hour`` promo, `The Pulse of Turkish Foreign Policy`; 1648 outro, 1649 song. 1652 `Letterbox` with Cemre. Copy is more difficult than usual as internet is choppy, cutting out so I miss some names, etc.

1) Mr. Alex? ---?, Pacific NW USA, listener since 1988, details of multiple logs on 11785 & 7275 takes first 7 minutes. 2) 1659, Christer Brunström, Sweden, is writing articles for ham publication about SWLing. Cemre says TRT believes strongly in SW radio, aware of the shortcomings of internet. 3) 1703, Port Alberni, Canada, listening via W3HFU remote in MD, almost perfect reception, 54555. 4) 1705, Mr. Andres? Siliani?, Stone Hill, ON, Canada. 5) 1708 finally: Ricky Hein, Rapid City SD, continues to complain about reception on 11785, 7275, SINPOs in the ones, uses Etón receiver, likes TV game shows, requests link for webcast but none provided. Asks him not to give up. Cemre saw a report somewhere that TRT was getting some CW QRM, what frequency? Also someone had ham/voice QRM on 7275 -- well, yeah, TRT is an INTRUDER into the W Hemisphere 40m hamband. They should go somewhere above 7300! 1711 wrapup, 1712 theme, ``w-y-e-h`` promo again, and now I see UTwente has it on 11659.995 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.012-, Sun Oct 5 at 2228, VOT not confirmed into UTwente when measured a signal at S7 but nothing audible (Glenn Hauser, OK, WOR)

** TURKEY. 9770, Oct 6 at 0505, S9+20/30 ME music, with little else on band. It`s TRT Turkish to Europe at 0400-0600 (Glenn Hauser, OK, WOR)

** TURKEY. 11785, Oct 6 at 2158, VOT not off the air, IS & IDs in English, 2200 TS and s/on, previews, S9+20/30 direct (Glenn Hauser, OK, WOR)

** TURKEY. 11785.010, Oct 7 at 2203, no signal direct from VOT English, but on by 2219 with music, S9+10 with flutter direct. At 2247 into UTwente when measured, S9+40/45 with music. Something`s always awry at Ankara: 2254 s/off still imagines it be the 1230 broadcast on

17620, and IS. Something`s always erroneous at Emirler: 2256 restarts IS with German IDs. 2300 TS and s/on German for two broadcasts, not this one! Finally turned off at 2314* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004, Oct 8 at 2157 no signal yet direct from VOT, but on by 2159 with IS & English IDs, S9+10/20 yet insuff vs noise level. At 2253 into UTwente when measured, S9+5/15 at s/off, 2254 IS sounding louder than preceding voice, 2256 pause and restart IS with extraneous German ID, to 2257* Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U K O G B A N I [non]. 9915, Oct 7 at 0627, the 0601 BBCWS news fairly audible via ASCENSION, 4 words behind relay via RNZP 11725 with much stronger signal - despite BBC`s best efforts to prevent North Americans from hearing them on SW. Per EiBi & Aoki, 06-07 is the only hour that legacy 9915 is now in use anywhere; for central Africa (Glenn Hauser, OK, WOR)

** U S A. 335 MCW kHz, Oct 6 circa 0630 UT, BK, JBA NDB `CHRLZ` at BrooKings SD, 25 watts, finally a new beacon for me; previously on 335 had BV in BatesVille AR (Glenn Hauser, OK, WOR)

** U S A. 5000, Oct 3 at 0621, WWV with Doppler flutter, extremely unusual on this low and close frequency, propagation disturbance. That means carrier frequency is fluxuating sideways, rather than up-and-down strength flutter, which may also occur (Glenn Hauser, OK, WOR)

** U S A. 15016 USB, 11175 USB, stronger 8992 USB, Oct 4 at 2348, tail end of USAF crypto exercise with reverb, 2349 this is ``Kay-puck`` sounds like, ``out`` (Glenn Hauser, OK, WOR)

** U S A. 17314 USB, Oct 4 at 2343, marine weather mentioning ``Gulf of America`` as if it were correct, robotic, coords such as 22N/95W, mentions hurricanes and Norfolk. The usual USCG stations are all here including NMN Norfolk VA (Glenn Hauser, OK, WOR)

** U S A. 28203 CW, Oct 7 at 2205, VVV-5x KA3BWP/B. WGB list: ``28203.0  KA3BWP/B - Stafford VA USA FM18gk - #0 (28 Sep 2025) Note: VVV × 5 + ID + grid`` -- lots of activity now on 28 MHz both beacons and phone, CB 27 MHz full of hets, but hardly anything on 24 or 21 MHz hambands. QRZ.com: ``KA3BWP USA flag USA, Joseph P. McGinley, JOSEPH P "J.P." MC GINLEY, 46 SCOTLAND CIR, STAFFORD, VA 22554 USA - 10 meter propagation beacon 28.2025`` (Glenn Hauser, OK, WOR)

** U S A. 28203+ CW, Oct 8 at 2204, VVV K6LLC/B --- not in WGB list but QRZ.com: ``K6LLL USA flag USA, Thomas N Hobbs, South Orange Amateur Radio Association, PO BOX 2545, Mission Viejo, CA 92690, USA. Please visit our web site in honor of our friend Ted: http://www.soara.org/Beacon.htm

Viz.:
Identifier: K6LLL/B
Frequency: 28.2035 Mhz
Transmitter: Realistic HTX-100
Power Out: ~3 watts (at antenna)
Mode: CW
Antenna: 10m Hamstick
Location: Laguna Beach, CA, USA
County: Orange
Coordinates: 33 32 N / 117 46 W
Grid Square: DM13
Elevation: 980 feet above sea level
Operation: Continuous
Keyer: BASIC Stamp micro-controller running custom code``

(Glenn Hauser, OK, WOR)

** U S A. 28222 CW, Oct 3 at 2203, dash and slow W1DLO/B, alternating with fast VVV DE W1DLO/B ... (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2315 monitoring: confirmed Saturday October 4 at 1600 on WRN N America stream, and WRMI 9395 & 7730 both S8 into Knoxville SDR.

Also confirmed Saturday October 4 at 1736 the 1731 on SW Gold Radio, Germany, 6160.000 S9/+18 with ACI from 6165 China in English and RTTYditty; 3975.000 S9+5/10 clear, both into UTwente.

Also confirmed Saturday October 4 at 1938 the 1930 on WRN N American stream, and WRMI 9395, S7 into N9AZZ IL SDR.

Also barely confirmed Saturday October 4 until 2005 on WA0RCR, 1860 AM, MO, totally unreadable into N9AZZ IL remote, but recognizably my intonation, and pause for Vanuatu clip at 2002, so started about 1934. Reception improved marginally since then as the Sun lowered slightly.

Also confirmed Saturday October 4 at 2010 the 2000 on WRN Europe stream.

Also confirmed Saturday October 4 at 2114 the 2100 on WRMI 9395, S9+15 into Knoxville SDR.

Also confirmed Saturday October 4 at 2230 on WRMI 15770, S5/S6 but sufficient into Maryland SDR; despite missing a week ago. Not making it at all into UTwente where it`s aimed.

Also confirmed UT Sunday October 5 at 0313 less than 2 minutes into so started circa 0311 on WA0RCR, 1860 AM, VG S8/S9 into N9AZZ IL remote - BUT: interrupted by totally obliterating, extremely wideband multitonal signal lasting 13 seconds between 17 second pauses, as heard before. What`s it? Hopefully only something local to Cartersville. No longer happening when I check later at 0358. Next:

1030 UT Sunday WRN via WRMI 7730 7780 9395 9955 [new];
1830 UT Sunday SW Radio, Germany 3975 & 6160;
1900 UT Sunday IRRS SW via AM Italia 1323;
2100 UT Sunday WRMI 15770 to NE;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160 [except Oct 8];
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2315 monitoring: confirmed Sunday October 5 at 1834 the 1831 on SW Gold Radio, Germany, 3975.001+ S9+5

but JBA on 6159.999 with RTTYditty above, both into UTwente.

Also confirmed Sunday October 5 at 1900 on IRRS SW via AM Italia, 1322.996-, VG S9+5 into UTwente. Next:

2100 UT Sunday WRMI 15770 to NE;
2300 UT Sunday WRMI 9395 to NNW;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160 [except Oct 8];
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2315 monitoring: confirmed Sunday October 5 at 2016 the 2000 on WRN Europe stream.

Also confirmed Sunday October 5 at 2100 on WRMI 15770, S9/+10 into UTwente; following something in Russian, `Alameda Bible Fellowship`.

Also confirmed Sunday October 5 at 2300 on WRMI 9395, S9/+20 into Knoxville SDR.

Also confirmed Sunday October 5 at 2330 on WRMI 9455, S9+5/20 into Knoxville SDR.

Also confirmed UT Monday October 6 at 0030 on WRMI 7780, S9+10/20 into Mississippi SDR, S9+15/25 into Louisiana.

Also confirmed UT Monday October 6 at 0130 on WRN North America stream.

Not confirmed UT Mon Oct 6 at 0300 on Area 51 webcast only: As usual, WBCQ 5130 -86 Hz = 5129.914 into NH SDR signed off at 0300, while the webcast kept playing music until 0400 `Amos & Andy`. Later Larry explained that he was away; so it must have been running autoplay. Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160 [except Oct 8];
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2315 monitoring: confirmed 3975.002- at S9+5 and 6160.001 S9/+10 with usual RTTYditty on plus side requiring narrowed bandwidth if not LSB tuning, into UTwente, Monday October 6 at 1931 with WORLD OF RADIO 2315; 6160 almost fadeout

by end, followed by the Lullaby show, see GERMANY.

Also confirmed UT Tuesday October 7 at 0330 on WRMI 7780, S7/S9 into S Texas SDR.

Also confirmed Tuesday October 7 at 1300 on WRMI 9955, JBA S6/S9 direct.

Not confirmed Tuesday October 7 at 1425 the 1400 on even weaker WRMI 9955, JBA, but probably. Next:

2000 UT Tuesday IRRS SW via AM Italia 1323;
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975 & 6160 [except Oct 8];
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2315 monitoring: confirmed Tuesday October 7 at 2000 on IRRS SW via AM Italia, 1322.995+, L&C S9+10 into UTwente across Europe; following Wavescan before 1958.

Also confirmed Tuesday October 7 at 2331 on SW Gold Radio, Germany, 3975.002, S7/S9 into UTwente.

Also confirmed UT Wednesday October 8 at 0030 on WRMI 9395, steady S9+15 into Knoxville SDR. Next:

1930 UT Wednesday SW Radio, Germany 3975 & 6160 [except Oct 8];
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2315 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, Fromthe desk of Richard’s listening Post, Radio: JRC NRD-535 HF Since, 1995, (30 years of service), Antenna: random long wires in the trees. WRMI, World of Radio (#2315):
9395 kHz, empty signal, 2300, 2329, October 5 UTC 2025 {Sun}
9455 kHz, S9 signal, heard everything, 2330, 2345, 2358, 2359 (4-55433), (45433), October 5 UTC 2025 {Sun}
9395 kHz, 0031, 0043, 0057 (45433), 0059, October 8 UTC 2025 {Wed}
9395 kHz, 2330, 2345, 2359, S7, S8 signal, October 8 UTC 2025 {Wed}
(Lemke, Richard -AB)

Confirmed Wednesday October 8 at 2100 on WBCQ 7490-, S9+5/15 into Vermont SDR.

Confirmed Wednesday October 8 at 2330 on WRMI 9395, S8/9+5 into NH SDR with some OTH radar QRM roughly 9385-9410. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1630 UT Thursday SW Radio, Germany 6160.

Many thanks to Jim Snow, St Simons Is., Georgia, for a generous check to Glenn Hauser, P O Box 1684, Enid OK 73702, and says: ``Dear Mr Hauser, I am sending this donation to help continue your great work in promoting our hobby!``

One may also contribute via PayPal, not necessarily in US funds, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. 5907.2, Oct 3 at 0619, WTWW parasitic spur from S9+20/30 fundamental 5920, match on 5932.8 still undetectable tnx to 5935 WWCR (Glenn Hauser, OK, WOR)

** U S A. 9670 approx., Oct 5 at 1445, huge blob at S9+20, extremely distorted but best readable when tuned in NBFM mode. It`s TOMBS and the mod matches 9930 WTWW, which is only S9 direct and somewhat undermodulated. At 1502 I email: ``George, Now there is a huge distorted blob on 9670 or so, TOMBS modulation matching 9930. 9670 audio clearest when tuning in FM mode! That`s 260 kHz below, but there is no match 260 kHz above which would be 10190, nor anywhere else. I am sure this is interfering with stations such as Channel 292 in Germany on 9670. Before and after 10 am CDT. Advise to fix or turn off. Glenn``

Well, it blox 9670 in N America, but at 1526, UTW is not hearing it, rather ACI from 9675 China. 9670 blob is S9+10 into Knoxville SDR. I`ve kept one receiver on 9670, and by 1602 notice that it and 9930 have been turned off, so George apparently got my message.

At 1829 I email him again: ``Checking at 1:23 pm, back on and same as before. 9670 is actually stronger signal and stronger modulation altho FM distorted, than 9930 is. Awful. 73, Glenn`` -- that is, 9670 is S9+25 direct, and 9930 is only S9 and undermodulated. Still the same at 1927; by a little later, 9670 blob may be reaching Europe. But at 1946, 9670 is gone and 9930 back up to loud & clear (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Oct 3 at 2351 into NH SDR: 5130 off, 6160 with JBA China? but 3265.186 is on, S9+20 with FKB // 7490 -64 Hz = 7489.936, S9+20; and 9330 is S7/9+5 with WLCR. At 0000 October 4 on 7490-, ``we are world famous`` before WTO theme, still on 3, 7 and 9 MHz, not 5 or 6. ``radio waves going into space``. Sweetie is there on phone. Discusses microphones, still at 0028 when he wonders if this is too boring for Sweetie, as she did not reply at first to a prompt. Says on 5 frequencies tonight, and indeed 5130- & 6160- have come on late, date stamp 3 of October, YOOLF 2023 [sic, slip]. 0055 recheck reading some Free Radio Weekly items, but can`t be this week`s issue which has been delayed until Monday. I`ve been listening on 3265.186 which is just as good at 7489.936. 0100 dead air, 0102 starts `Living by the Sword` with gunfire, instead of Hal Turner. Something else on 5130-, Turner? 7490 is now much weaker and 6160 is off again. As usual, no explanation of these at http://wbcq.com/schedule/ where LBTS appears only at 22-23 Monday on 7490 (Glenn Hauser, OK, WOR)

** U S A. WRMI: See POLAND [non]

** U S A. 15150, Oct 2 at 1431, WMLK not off the air, S9+25 of DEJOM. Had not been heard nor on 17525 since Sept 29 (Glenn Hauser, OK, WORLD OF RADIO 2315)

** U S A. 17525, Fri Oct 3 at 2158, no signal from WMLK, altho it`s before sunset starting The Sabbath; which in nearby Lebanon is 2244 UT per gaisma.com (Glenn Hauser, OK, WOR)

** U S A. 15150 & 17525, Wed Oct 8 at 1856, WMLK off and off. SAWA (Glenn Hauser, OK, WOR)

** U S A. 650, Oct 5 at 0042 UT just as I tune in WSM, announces that tomorrow Oct 5 is its 100th ANNIVERSARY! and will be celebrating that all day at the Grand Ole Opry. Then I see info from Mike Cooper about this in the WOR iog:

```From Fayfare's Opry Blog:

``On Sunday October 5, WSM Radio will celebrate its 100th anniversary. In addition to the annual Opry Community Day, which will include an Opry Plaza Party and Opry House tours that will be free to Tennessee residents, there will be a very special Sunday Night Opry that will honor WSM that evening. The show will feature each of the WSM air personalities, along with Opry members Dailey & Vincent, Ketch Secor and Pam Tillis. Also on the schedule are Charlie Worsham, Elizabeth Cook, Tommy Emmanual, Chuck Mead and Chris Scruggs and The Stone Fox Five. That is shaping up to be a big show.``

Here's an article from Billboard last month about WSM's anniversary:

``WSM Turns 100: How One Nashville Station Leaned on Innovation to Make Radio History --- By Tom Roland 9/11/2025

One of the most important storylines in country music in 2025 is the celebration of the Grand Ole Opry's 100th anniversary. But that milestone, which arrives Nov. 25, wouldn't exist without another, earlier centennial: the launch of WSM-AM Nashville on Oct. 5, 1925....`````
https://www.billboard.com/pro/wsm-am-turns-100-radio-station-innovation-grand-ole-opry/
(Glenn Hauser, OK, WOR)

** U S A. 780, UT Sat Oct 4 at 0640, `Stardate` on WBBM: it should be a new one for this date, but we already heard it, about WIMP and dark matter, Lead SD, which was for Oct 3. WBBM always deletes the date at start thinking they can get away with outdated playbacks (Glenn Hauser, OK, WOR)

** U S A. 780, Oct 8 at 0642 UT after conclusion of 2-minute StarDate from 0640, WBBM Chicago announces time as ``1:45`` - don`t you believe it (Glenn Hauser, OK, WOR)

** U S A. Re gh 880 Spanish log, previously under UNIDENTIFIED, q.v.: ``Mauno, your information is correct. KEYH 850 feeds the 105.3 translator. KJOZ 880 is Latino Sports and music, mostly the latter. The La Mejor format on 104.5 doesn't have an originating station. Stephen Luce, Houston, Texas`` (via Glenn Hauser, WOR)

** U S A. Reply to some of my MW logs the past week: ``Glenn et al, My observations. 73, Wayne Heinen, N0POH, Editor, NRC AM Radio Log, Aurora, CO:

[Re KJOZ:] If 880 decides on something, I guess I can update the AM Radio Log database, it acts like it is brokered and broadcasts whatever someone is willing to pay the air time fee for!

On 890 KDXU and their TLK format has been a consistent close second to WLS since the season began. I wonder if their night DA is having issues? (via Glenn Hauser, WOR)

** U S A. 1030 kHz, Oct 6 at 0446 UT, gospel song in Spanish, presumed KCWJ Blue Spring MO, U4 5000/500, R. Vida (Glenn Hauser, OK, WOR)

** U S A. 1140, Oct 8 at 0633 UT ``1140 AM & 96.1 FM, NewsRadio WRVA`` from Richmond VA, atop anything else, unusually - and gives top billing to original AM! Unlike so many - WBBM, WSB, etc., etc. (Glenn Hauser, OK, WOR)

** U S A. 1330, Oct 6 at 0501 UT, pause in gospel music for ``You are listening to West Texas` powerhouse, KCKM...`` Really? 12/1 kW? Format is basically C&W per NRC AM Log. BTW, Paul Crankshaw, Troon, Scotland, MW Circle, logged Monahans Sept 28 as a `personal first`. Night
```

pattern is supposedly pulled in to the NE toward Wichita & Troon: https://radio-locator.com/cgi-bin/pat?call=KCKM&service=AM&h=N with deeper notches NW toward Gallup, SSE toward Mexicans (Glenn Hauser, OK, WOR)

** U S A. 1420, Oct 7 at 0701 UT, ``CBC News`` attributed, sounds like, but no Canadians here in NRC AM Log nor any *non-comms in US which might be carrying it; then 0702 ad mentioning Mississippi Valley Fairgrounds; and ``News/Talk 1420 WOC`` ID, same station? WOC Davenport IA, the usual dominator here of 1420. In Log pp 259-260, I don`t see any network with similar letters (Glenn Hauser, OK, WOR)

** U S A. 1460, Oct 5 at 0000 UT, partial ID as 1460 and 96.7 Southward?? Of the 62 stations on 1460 in NRC AM Log, not one correlates with FM on 96.7. But the WTFDA FM DB hits one and it looks very likely: K244FO relay of KHOJ 1460, Crestwood MO, Covenant Radio, a Catholic network. KHOJ is in St Charles, U4 12000/210 W, Heart of Jesus Radio. FCC AMQ still refuses to provide SR/SS tables, but gaisma.com shows SS today at 2339 UT, and about 2325 by mid-Oct, so should be on night power and pattern (Glenn Hauser, OK, WOR)

** U S A. Reply to some of my MW logs the past week: ``Glenn et al, My observations. 73, Wayne Heinen, N0POH, Editor, NRC AM Radio Log, Aurora, CO:

On 1460 I'll refer you, once again, to the Groups section of the Log. Grp= Heart of Jesus Radio, which is listed under KHOJ in the Log. With a quick check in the handy reference Groups section in the back of the Log shows:

Heart of Jesus Radio – KHOJ-1460, WRYT-1080, KBKC-90.1, K244FO-96.7, W224DC-92.7, K275CI-102.9

I know it is a pain to check each group but, I haven't had any better suggestion to make these types of // groups any better`` (via Glenn Hauser, WOR)

** U S A. 1520, Oct 8 at 0638 UT, C&W music at equal level QRMing KOKC, conveniently IDing right away as ``Classic Country KRHW`` - that`s Sikeston MO, U7 5000/1600, also 5000 for Critical Hours. U7 means three different direxional antenna patterns. Sikeston is south of Cape Girardeau; radio-locator, not NRC AM Log, shows address in Mt Vernon IL, not very close but connected via I-57. Night pattern is very tight N/S, not including Mt Vernon: https://radio-locator.com/cgi-bin/pat?call=KRHW&service=AM&h=N Day pattern is much broader but supposedly with a notch toward OKC https://radio-locator.com/cgi-bin/pat?call=KRHW&service=AM&h=D CH pattern is N/S but not so tight as at night: https://radio-locator.com/cgi-bin/pat?call=KRHW&service=AM&h=C None of these explain why it should be as strong as KOKC in OK. Normally is unheard at night, but have heard it before, see Feb 20, 2025 at 0745 which reads almost the same as now (Glenn Hauser, OK, WOR)

** U S A. 1540, Oct 5 at 0050 UT, KEDA, R. Jalapeño ID after mentioning Linares, which is a town in NL; on N/S antenna only. Is U4 5/1 kW from San Antonio TX. I wonder if the calls allude to ``stay here with us``? (Glenn Hauser, OK, WOR)

** U S A. 1620, Oct 5 at 0054 UT, ``downtown Omaha``, 402 AC phone, Equitable Bank, 0055 ``1620 the Zone and 101-9 The Keg`` -- i.e. KOOO 101.9 La Vista NE which is an Omaha suburb, 96 kW, with adult hits, hardly a match for a sports format? 1620 being KOZN Bellevue. They are at the same address in Omaha itself and both owned by Nrg License Sub, LLC.

[non] I had remembered there was something new on 1620, altho a bit too early for it, per Tim Hall in ABDX: ``XECSCGU-1620 Guachochi CHIHUAHUA September 29, 2025 --- Methinks they finally bought that new 2 kW transmitter they were saving up for; logged them with a pretty solid signal here at home (south of San Diego) at 0400 UT while testing some of my new gear last night. They were fighting with Rebelde and my local HAR. Logged them again just now (1200 UT) on the Mexican DX Club's SDR putting a good dent in WTAW. So they are definitely getting out. Format is mostly Spanish contemporary Christian music (which can sound like any other kind of music – ranchera, norteña, etc. – you have to listen to the lyrics) and “Creo Radio” liners. If you want to log an extremely rare 7(!)-letter call, I'd suggest you try for this one tonight. 73 Tim`` (Glenn Hauser, OK, WOR)

** VANUATU. 9960, RV no longer heard here. Ron Howard got reply from station`s Pryce Aptenbel Oct 2: "Hi Ron - Sorry for the brief off-air interruption. There was no power cut – we just had to change the frequency. This has now been completed, and you can receive our signal on 5040 kHz and 7260 kHz until December. Please note that we will update the frequencies again from December through April, and so on, in line with our seasonal schedule." But via NZ remote, Ron was still hearing it at 0859 Oct 2 on 3945 - clip on WOR 2315.

So I`m checking 7260 reactivated for RV, Oct 3 at 0410 -- too early to reach KFS in CA, let alone OK direct, but northernmost KiwiSDR in NZ is getting English, S5/S7 with some hum, woman discussing dugongs, biodiversity in seagrass. 0417 improves to S7/S9 and 0421 ID as an ABC Podcast of Oct 3, `Pacific Beat`.

By 0606, KFS is getting it via NW antenna, music at S5/S7. And at 0616 I have a JBA carrier direct on 7260. We don`t yet have a complete new frequency schedule. Ron Howard replies:

``Thanks, Glenn, for confirming Radio Vanuatu now on 7260 (ex: 9960), assume till 0658* UT. Via Kiwi SDR remotes in NZ, I confirmed now on 5040 (ex: 3945), at 0947 UT and assumed
started at *0658`` (Glenn Hauser, OK, WOR)

** VATICAN [and non]. 17790, Oct 2 at 1428, VR IS S4/S6, 1430 ``LIX`` and S Asian music, talk. Hindi scheduled; at 1510 music atop CCI/SAH, presumably WRMI starting at 1500, cool with the clash until 1600. LIX = ``Laudetur Iesus Christus``, the VR slogan/motto. Now you know (Glenn Hauser, OK, WOR)

** VATICAN [and non]. 17790, Sat Oct 4 at 1449 VR IS & ID, 1450 Tamil following scheduled Hindi. At exactly same time, WRMI IS & ID starts, equally weak signal direct prior to 1500+ broadcast. Vatican stays on 17790 until 1600, OK collision for HFCC (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 385 MCW kHz, Oct 5 at 0635, JBA ND beacon(s), can`t copy clear call and suspect two mixing. One letter somewhere is L. RNA list shows only one close enough and possible with an L is: UWL, New Castle IN, 25 watts. Second most likely is HO, ``Hossy``, Hot Springs AR, 50 watts. I have heard both before. Others in TX, LA, GA, IL less likely, the IL and LA ones not reported lately, while the others have been in September, per RNA listings (Glenn Hauser, OK, WOR)

UNIDENTIFIED. TA JBA MW carrier search, Oct 6 at 0440 UT: only a trace? on 1134, nothing else in horrible conditions; altho Cubans? on 711 & 1141 showing; also some pirate or TIS carrier on 1710 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 773 kHz, Oct 2 at 0631 UT, there it is, that JBA

carrier, while nothing on 774 nor other 9/kHz TA frequencies (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.49, Oct 3 at 0632, JBA carrier hetting WHB 810.0. Tim Hall replies in ABDX: ``Re: the ubiquitous carrier on 810.5 kHz (not actually covered in today's update from Glenn): It's now showing up on my 1200 UT recordings from home (between San Diego and Tijuana). I do not discern any audio. My loop was aimed NW/SE, roughly at Central México. Of the 4 Mexican stations listed, XERB would be in daylight at this hour, XEHT is believed silent (their AM license expired a few years ago), and XEEMM has been noted on the proper frequency per SDR monitoring, so that would leave XERB (apparently running very low power). Domestically, KYTY has been observed on frequency in recent SDR monitoring, so possibly KXOI? 73 Tim``

KXOI: Crane TX U4 1000/500, address in Odessa, just north of Crane, SS:REL `La Nueva Radio Alabanza` per NRC AM Log.

XERB in his IRCA Mexican Log: ``810 XERB QRoo Cozumel 2500 250 Sol Estéreo [89.9], Tu Nuevo Amanecer, Grupo Sipse, Siempre Cerca de Ti 24h POP:E/S/TRO/TLK/VAR - // XHRB 89.9FM. Still active on AM 7/24 (logged by DXer), and still included in 7/25 IFT list. Facebook page now mentions AM again. Early morning show "Tropimañana" includes "rooster" sound effects between songs produced by a novelty store rubber chicken. Station takes a lot of requests, and runs many live and pre-recorded announcements which often recite the station phone number in an unusual manner: 9-87-87-2-0-9-48. info@sol899.com`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 869.62 kHz, Oct 5 at 0048, JBA het against WWL, another mystery. Nothing so far off in MWOffsets (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re: ”880, Sept 29 at 0548, Mexmx atop KRVN, whatever, plug app for sounds like “La Pino Max“, or Mas, “en todas partes“. Nothing similar among US stations in NRC AM Log. Usual heard is WIJR Highland IL, La Tremenda. Mexico? IRCA Log shows only one, in Chihua2, and it`s silent (Glenn Hauser, OK, WOR)”

``This isn't much help; but “La Pino Max” sure sounds like it might be “Aquí Nomás,” which is the secondary slogan for stations using the “La Mejor” branding package (it's not necessarily a format) in the US and México, e.g., KSUN-1400, XEHS-540. Unfortunately I don't know of any stations on 880 using this branding. 73 Tim Hall`` (Glenn Hauser, OK, WOR)

UNIDENTIFIED. ``Glenn, regarding Spanish on 880: KJOZ in Conroe, Texas (Houston market) has recently been running a mixture of sports talk and Regional Mexican music. I have only briefly sampled the format and am not sure who produces it, but there is a Spanish language radio production company in Houston that uses “LatinoMax” as part of the branding on its formats, and (I think) a streaming app. Perhaps that is what you are hearing? KJOZ is pretty much all music at night. Stephen Luce, Houston, Texas``

I bet that`s it; I was discounting it because of listed SS:REL format; U4 10000/1000 and probably heard a few times before with flexible formats, Day pattern close to ND, night favors SW. Then there`s this:

``It was reported as Latino Sports "música y deportes". It should be the originating station for 104.5 MHz translator, but it isn't, it carries La Mejor instead. La Mejor announces KEYH 850 as originating station, but it isn't, but carries Radio Visión Latina with translator on 105.3 MHz. Or at least was like that some time ago acc. to MW and FM list. Could you please check? Thanks, Mauno`` Ritola - is that

unclear? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1360.27 approx., Oct 7 at 0706, JBA het against 1360.0 stations. Estimated not by direct readout, but comparing het pitch in AM, with a frequency offtuned in USB. IIRC a recent report elsewhere of such, but can`t find it now. Nothing so far off, of course, on mwoffsets (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Re my 1360.27 carrier - I found the other references to it, IRCA: ``Heterodyne on 1360 --- On Monday, October 6, 2025 at 11:11:26 PM EDT, I have a fairly strong carrier on 1360.277, but no audio. I don't know what it is. Mike Westfall, N6KUY, "Mesa Mike", FM07su, Fluvanna County, VA, SDRPlay RSPdx-R2, 21'×70' KAZ antenna, beam 160°, null 340° My DX Logbooks: http://mesamike.org/radio/dxlogbook/main.mvc?account=mikew

MarkWA1ION Oct 7 #49823 ~1360.278 present here. Audio not splittable. Not seeing 1360.07. 1360 dominant WDRC CT. Other stuff under. 0300 UTC capture. Mark Connelly, WA1ION | South Yarmouth, MA, USA | FN41vq`` (via Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1560, Oct 2 at 0647 UT, something in English atop Vietnamese from KGOW, unusual. It`s a Superman episode on `When Radio Was` - that show site makes you search each state for affiliates. I try a lot of the more likely/nearer ones with 1560 stations, and the only hit is KBEW Blue Earth MN but not at this time. KZQQ Abilene TX is another in broad search on title and frequency, but again, not at this time (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7672-7726 approx., Oct 7 at 0632, very wideband multitonal carriers beating against each other, barely missing 7730 WRMI; what`s it? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 10009 USB approx., Oct 7 at 0628, mix of voices here, one yelling sort of English, not on exact same frequency. Klingenfuß 2022 says it`s an AMS frequency = aeronautical mobile service, with no further details, like 10006, 10012, 10015, 10018, 10021, 10024, 10027, etc., etc. (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 24980 USB, Oct 4 at 2334, KZ + something in Miami FL renders a 59 to some contact. Despite several utterances, I cannot understand the rest of his fonetix: kilo zulu --- fernan ganji ??? KZ5 used to be prefix of `our` Panama Canal Zone (Glenn Hauser, OK, WOR)
